EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Claims 1-7 and 13 are allowed. The restriction for claim 13 has been reconsidered in view of allowance of claims 1-7 and has been withdrawn as it contains each any every limitation of the allowed independent claim 1.

Authorization for this examiner's amendment was given in a telephone interview with Attorney Krumholz on 11/19/2009.

The application has been amended as follows:

In claim 1, line 5, the word 'configured' has been added after the word conduit and before the words 'for feeding'.

Claim 13 is replaced with the following:

A method for feeding a mixture of steam and fibers to an elongated feeding compartment having a pair of short sides for apparatus for separating steam from a mixture of steam and fibers, where the mixture of steam and fibers are fed by a conduit through an inlet arranged between the short sides of the elongated feeding compartment, and where the fibers are conveyed

further by means of a conveyor worm arranged axially in the feeding compartment, the conduit comprising a curved conduit section which is curved such that the mixture of steam and fibers during passage in the curved conduit section is brought to separate under the influence of centrifugal forces into a substantially relatively heavy steam-less fraction of fibers in a radially outer layer and into a substantially light fiber-free fraction of steam in a radially inner layer, the curved conduit section is arranged in such a way that heavy fraction of fibers is fed through the inlet peripherally into the elongated feeding compartment of the apparatus, where the separated fraction of fibers are conveyed further by means of the conveyer worm, while the separated light fraction of steam is fed through the inlet against the center of the elongated feeding compartment and removed through an outlet of the apparatus.

2. The following is an examiner's statement of reasons for allowance:

The applicant's arguments submitted 9/15/2009 were found convincing. The examiner found that an apparatus with a curved inlet conduit connected between the short sides of the apparatus and configured for separating fiber and steam with steam moving through the center of the device and the fibers conveyed via a conveyor worm was novel and non-obvious. The RISI document cited 8/1/08 showed mechanical steam separators in use but only outside of the United States. The first use/sale in the U.S. of 2004 is after the priority date of 10/17/2003.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

3. Claims 1-7 are directed to an allowable product (apparatus type product). Pursuant to the procedures set forth in MPEP § 821.04(B), claim 13, directed to the process of making or using an allowable product, previously withdrawn from consideration as a result of a restriction requirement, is hereby rejoined and fully examined for patentability under 37 CFR 1.104.

Because all claims previously withdrawn from consideration under 37 CFR 1.142 have been rejoined, **the restriction requirement as set forth in the Office action mailed on 8/1/2008 is hereby withdrawn.** In view of the withdrawal of the restriction requirement as to the rejoined inventions, applicant(s) are advised that if any claim presented in a continuation or divisional application is anticipated by, or includes all the limitations of, a claim that is allowable in the present application, such claim may be subject to provisional statutory and/or nonstatutory double patenting rejections over the claims of the instant application. Once the restriction requirement is withdrawn, the provisions of 35 U.S.C. 121 are no longer applicable. See *In re Ziegler*, 443 F.2d 1211, 1215, 170 USPQ 129, 131-32 (CCPA 1971). See also MPEP § 804.01.
